

Commitment Statement

on adherence to SBP, EU RED and EUDR requirements

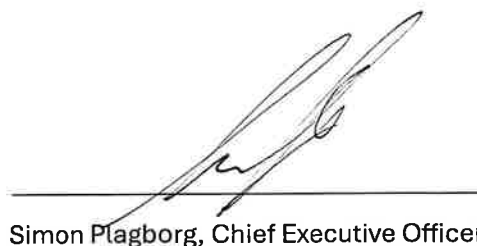

Northflare Energy management hereby formally reaffirms its unwavering commitment to the full implementation and strict compliance with all requirements set forth under the Sustainable Biomass Program (SBP), the Renewable Energy Directive (EU RED) and the EU Deforestation Regulation (EUDR) across all applicable aspects of our business worldwide.

We are dedicated to adhering to these standards and implementing all relevant elements, including traceability, chain of custody system and mass balance requirements, to ensure strict alignment and maintaining the highest levels of compliance and operational integrity.

In accordance with the EUDR, Northflare Energy will maintain documented due diligence framework covering legality verification, sourcing free of deforestation or forest degradation. Northflare Energy implements geolocation-based traceability, supported by risk assessment, mitigation and evidence-sharing protocols.

This Commitment is applicable for all our business activities and is relevant for the following legal entities:

- Northflare Energy A/S
- Northflare Energy Operating, LLC
- Northflare Energy Crossville Pellets, LLC
- Northflare Energy Jackson Pellets, LLC
- Northflare Energy Quitman Pellets, LLC
- Northflare Energy Brookhaven Pellets, LLC
- Northflare Energy Asia Pte Ltd
