

Stakeholder Engagement - Comments, concerns and complaints

At Northflare Energy, we recognize that forestry and related industries are closely entangled with a range of global environmental and human development challenges. Driven by our values of integrity, sustainability, and accountability, we are committed to addressing these concerns.

In North America Northflare Energy operates a central trading entity, along with several pellet mills and joint ventures throughout the Southeastern United States. We actively welcome feedback from all stakeholders who may be impacted by our operations. We encourage the submission of any comments, concerns, or complaints related to Northflare Energy business activities in North America, including those of the following affiliated companies:

Northflare Energy Operating, LLC
Northflare Energy Crossville, LLC
Northflare Energy Jackson, LLC
Northflare Energy Quitman, LLC
Brookhaven Pellets, LLC
